Connecting You to the Lives You Save & Change

Because of YOU, We have HOPE

Woman's New Life Center Breaks Ground

Because of you, Woman's New Life Center celebrated the groundbreaking of our new Claiborne Avenue location on Thursday, August 11, 2016.

You did this! You invested in something bigger than all of us. For decades to come, this building will stand as a tangible sign of love and hope.

When the world says, "Abortion is the answer," this building says "There is another choice." When the world says, "You're not worth anything," this building says "You have dignity."

Together, we have all played a part in opening a clinic, which stands not only as an alternative to Planned Parenthood and the worldview it espouses, but also for women. **We are a place for all women: those in unplanned pregnancies who need help, those who need well-woman care, those who are hurting from past abortions, those who are struggling with infertility, and those who would otherwise be prey to Planned Parenthood.** Our mission is to celebrate women and to reclaim reproductive healthcare.

We build this building for Shelly—

Shelly came to us from the abortion clinic next door. She was in despair and felt she had nowhere to turn. In her first encounter with WNLC, she felt hope. She could hold on for one more day and take one more step. She came back week after week, gaining hope and confidence. She realized that she did not want this abortion. Ten months later, we got to hold her sweet baby, Joy.

We build this building for Adam—Adam came to us in a very difficult place. He knew his past abortion was affecting his life and his decisions. He wanted to find healing. With individual counseling and the help of a retreat, he leads a happy life and helps others who have gone through the pain he has experienced.

We build this building for Kelly and Don—this couple struggled with infertility for years. They had lost hope of having a baby until they found the Creighton Model and NaProTECHNOLOGY. Through hormonal supplements that work naturally with Kelly's body, they were able to conceive and are now expecting their first child.

HOPE Woman's — CLINIC —

"We are doing something that is truly innovative and groundbreaking in so many ways," explained Dr. Susan Caldwell, medical director of Hope Woman's Clinic, at Woman's New Life Center's groundbreaking ceremony. "We realize that the task set before us seems humanly impossible. But as we are reminded time and time again in Scripture, nothing is impossible for God."

The mission of Hope Woman's Clinic is to become the new standard of women's healthcare. Women's healthcare has often been influenced by the culture of death, one that views a woman's fertility as a burden. Hope Woman's Clinic takes a differentiated approach, using no medications or treatments that intentionally harm the function of a woman's reproductive system. From well-woman exams to treatment of gynecological issues and infertility through the use of NaProTECHNOLOGY to Natural Family Planning instruction, Hope Woman's Clinic offers authentic and nurturing healthcare for women.

"Every day we are reminded why this clinic must exist," said Caldwell. "Many of our patients are well aware of their dignity and vocation as beloved daughters of God and are seeking healthcare that upholds that dignity. Many more of our patients have no idea of their dignity or vocation; they suffer the consequences of behaviors that often betray that dignity. We are here for them."

Hope Woman's Clinic is the natural fruition of Woman's New Life Center. Through it we are able to serve all women throughout all stages and circumstances of their reproductive lives. Through it we can be that beacon of HOPE that guides them towards knowledge of their dignity and worth as daughters of God.

Our New Building, Artwork by Ana Borden

We build this building for Rachel—Rachel is a young woman on her way to college. She came to Hope Woman's Clinic with scars from other types of women's healthcare. She wanted to be supported in her desire live a chaste life.

Because of **YOU**, there is new hope for our daughters, a place that embraces their dignity and encourages their purity.

Because of **YOU**, there is help for those struggling with infertility.

Because of **YOU**, there are over 2,000 people in this community who were saved from abortion through this ministry!

Thank you for making this happen! The culture of life in our community will thrive—because of **YOU**.

Thank You for Helping Our Neighbors in Need!

The August flooding has been truly devastating for so many in our community. Thank **YOU** for your generosity in donating goods to those who need help. As a community, you came together and helped our neighbors, families, and friends. Together we have helped many women and families who have lost so much from the devastating floodwaters.

In this tragic time for our community, we continue to pray for those who have suffered loss, especially all the faithful supporters of our ministry over the years. We ask that you join us in continuing to pray for all affected in the surrounding area.

Upcoming Events

Gala for Life
October 7, 2016

Join us for a charming evening as we dance the night away and enjoy an exquisite selection of Louisiana cuisine at Club XLIV in Champions Square! This night to remember will attract more than 500 of the area's top business, civic and community leaders to join forces and raise funds to save lives.
